
Datos simulados $y_t$
Intervalo 95 % de $p(x_t^1 \mid y_{1:T})$
Media posterior de $x_t^1 = s(t)$
desplazamiento $x_t^1 = s(t)$
Intervalo 95 % de $p(x_t^2 \mid y_{1:T})$
Media posterior de $x_t^2 = \dot{s}(t)$
velocidad $x_t^2 = \dot{s}(t)$
tiempo (s)
